

## Sales & Operation Manager

Brasserie Surréaliste is a young micro-brewery founded by two passionate brothers specializing in hop-forward and sour beers.

We recently found home in the trendy neighborhood of Dansaert in Brussels, in an iconic art-deco building of 1,500 square meters. We have a 10HL brewhouse, many tanks, barrels, and an automated canning line. Our 600m2 taproom is opening in Autumn and will feature a huge bar, a restaurant, winter garden, beer shop and an exhibition hall with a special focus on digital art.

As our first non-production-related employee, the candidate will be in direct contact with founders and have significant impact on our business at different levels. As such the position will be very multidisciplinary. We are looking for a young skilled and motivated person to join our team immediately.
